Sounds perfect – Please be sure to include their attorney and Pam as well (and cc me – I’ll try to sit in if I am available).

Thank you!!!

I will put together agenda items for you. [Redacted] I am not  
sure what else we would get from R5 about cost information. [Redacted]  
[Redacted] I can set up an email with Ryan and say it’s a follow-up for  
lessons learned.

**Subject:** FW: CRW - Next Steps

Hi Steve. So, I think our next step is to pull the agenda together for next week. Given that I think our letter is solid, I think this should not be a heavy lift (fingers crossed). So, I pulled my notes from our meeting on 7/1. See it below. I think we can still follow this same approach for the agenda. Obviously, we have been focused on the letter, so the July 13<sup>th</sup> deadline is pushed back. I’m hoping you can get me something by noon tomorrow so we can pass that along by COB tomorrow – [Ex. 5 Deliberative Process (DP)]  
However, please reach out to R5 and see if we can get a call for early next week.

Here’s the outline as I see it. I just need you to fill in some of the details beneath line items 2 and 3, per the direction in the e-mail below. I think some info. from the letter will work.

Let me know if you want to discuss further. CCing Rick in case he has any further input.

Item 1 – CRW – Modeling Presentation/Overview  
Item 2 – EPA – What EPA Needs for an Approvable Long-Term Control Plan  
Item 3 – EPA – Further Information EPA Needs on Short-Term Priority Projects  
Item 4 – All – Next Steps

Subject: CRW - Next Steps

Thanks, all, for the discussion on CRW this AM. As discussed, here is how I see next steps. Also, I have a short call scheduled with Jen tomorrow to see if there is any further insight I can gain on how to best proceed here, given her expectations. I'll let you know what I gather from that conversation and if it is helpful.

## Ex. 5 Deliberative Process (DP)

# Redacted

3. I think we also may need to add an agenda item regarding their modeling – We didn't have a chance to talk about this today, but I'd like to get your thoughts on the usefulness of this info for an approvable LTCP, and if we have any further questions, given the info. that they have provided. Please think about this and if we are looking anything from them on this during our next CC.

Again, thank you for your work on this. I certainly know this is NOT easy, so be sure to enjoy the holiday and don't think at all about CRW 😊
